Dear Sir/Madam,

My name is Japhet Kipkemoi korir aged 19 years and I thank God for that. Hope you are doing well with your families. I have completed my fourth year out of Tambach Boys High School and obtain a mean grade of B- which gave me an opportunity to proceed to the university according to the Kenyan education system.

My challenge is my background because we are humble and poor and first of all I am so much grateful, appreciative and thankful for the support you have always been giving to me. You have really made me realize my potential when you totally paid my fees over the four years at Tambach.

I am partially orphaned after my father died in 2009 when I was almost doing my primary school final examination (K.C.P.E). I was not sure of proceeding to the admirable Tambach because I had no fees at all. My mother is ill and poor and was not able to raise my fees but I thank you for you really cared of me and paid my fees.

I have two brothers and a sister. Our first born completed high school but with a lot of challenges and was not able to proceed to the next level due to lack of fees. Now I am the only dependant person who will one day save my family. My family is very poor especially after my father's death. Now that I am admitted to the University of Nairobi (School of Business) to take a course in Bachelor of Commerce fees will also be a challenge and will still appreciate your support.
