

02/03/2018

I am Prudence, I study at Singapore girls highschool. We were the first school in the country. We get knowledge from our teachers. They teach us well and encourage us in our studies. There we study very hard. We wake up at 4:30 am and go to bed at 10:00 pm.

Under the sponsorship of class and E6 I am struggling to achieve my goals. I want to be an Engineer and therefore have to struggle hard. My aim is to have a good grade and join a good university.

My best subjects are Physics, Maths and Biology. I also have a positive attitude towards other subjects because I know that they will contribute towards achieving my carrier.

When I succeed in future I will also start a foundation that will educate children in my community. There are many people who go through many challenges. I pray to God that I will be the one to remove that poverty. All I can say is that thank you for inspiring me. I also want to inspire people in future because I want someone to look at me and say because of you I didn't give up.

About My family is that they are fine and doing well.

Yours Regard
Prudence.

My name is Prudence Jerop Kibet. I am 15 years old. I am in form one. I am the third child in my family. ~~But~~ I have six siblings. Others are in school others have not started school. My parents are Dianah Jopkorir Kwambai and My father is Gilbert Kibet Murpus. They are all farmers.

I want to be an Aerospace engineer. This is why I am in school. I am working very hard to achieve my career. I am under sponsorship and that is why I want to achieve my goals and sponsor others in my society.

I also want to thank class and ESR for the good they have done to ~~my~~ me. If it was not them I would not be in school now. I want to work hard to finish my secondary education and pass very well, and join a good university. In future I will not forget class and ESR for their contribution for my success.
